Bonus tip:

The City of Alpharetta's website has a wonderful GIS tool that will help you find which Jurisdiction an address is located.

You can use this website to verify the address before logging into the Permitting Portal.

Here is the link: http://alphagis.alpharetta.ga.us/AlphaGIS

Upon opening the link, click on the 3 horizontal bars, mark the box for "Cities"

Enter in the desired address and click on the magnifying glass.

If the address you are trying to permit is in any color but **GREEN**; it is NOT in the city limits and the permit should NOT be entered for The City of Alpharetta.
