**TRUM POOL VARIANCE
APPLICANT REQUEST AND INTENT**

What is the proposed use(s) of the property?

There is no change in the proposed use of the property. This request for variance addresses our proposed installation of an in-ground pool in our backyard area. The subject property is our primary residence.

Applicant's Request (Please itemize the proposal):

We respectfully request that current City requirements calling for a 20 feet setback (of the pool from the back lotline) be reduced to 10 feet based upon this variance request.

Applicant's Intent *(Please describe what the proposal would facilitate):*

Granting the requested variance will allow us to install a more desirable/viable in-ground pool; due to the shallow depth of our backyard today, the traditional 20 foot setback required from the back lotline prevents us from being able to install the desired pool.

BOARD OF ZONING APPEALS REVIEW CRITERIA

Please respond to the following ONLY if you are applying for a zoning variance.

Are there extraordinary and exceptional conditions pertaining to the subject property because of its size, shape, or topography? Please describe them.

As we have a relatively shallow backyard (ie depth from home to back lotline), we would like to have the additional 10 feet of setback to be able to put in a rectangular pool with a traditional 18 foot width, and still allow for a reasonable amount of deck space. Without the setback variance, it is impossible to put in a viable pool.

Would the application of the Zoning Code standards as they relate to the subject property create an unnecessary hardship? Please explain.

Yes, as stated above we would either need to put in a much less desirable pool - ie akin to a plunge pool - or try to re-orient the pool at a very awkward angle that would have less than desirable aesthetics. We actually moved to this home from our previous home (which was located 200 yards away, and in the same neighborhood) just 6 months ago - with the sole reason being our ability to put in a full size backyard pool.

Are there conditions that are peculiar to the subject property? Please describe them in detail.

N/A

Would relief, if granted, cause substantial detriment to the public good or impair the purpose and intent of the Zoning Code? Please defend your response.

No - and to the contrary - we have widespread support from neighbors and our community overall - especially as this is only the 2nd pool being built in our neighborhood of 37 homes. Adding the pool adds to home resale values.

On a separate sheet or sheets, please provide any information or evidence that supports your request and the statements that you have provided in this application.

Please describe the method(s) by which these individuals will have the opportunity to respond or contact the applicant with questions or concerns about the proposal.

We have already personally met with the Anderson's, Williams' and Song's and shared the details of our plans and the specific variance request. We have also communicated via phone and email with both the Enclave at Glen Abbey HOA (including the Design Review Board) and Glen Abbey HOA. As part of our submission, we have confirmed letters of No Objections from the Anderson's, Song's and both HOA's. The Williams' currently have their home actively listed on the market and are distracted with significant showings and other activity - but have promised to follow up with us shortly.

To Whom It May Concern:

As the Community Manager and on behalf of the Glen Abbey HOA, I understand that Karen & Leon Trum (145 Sweetbay Circle) are pursuing a setback variance for their planned in-ground swimming pool. Our HOA's understanding is that they are asking for the prevailing 20' setback required for their back lot to be reduced to 10'.

Based upon this variance request, our HOA has no objection to the City's anticipated approval of the request. We also understand that the Glen Abbey homeowners who are adjacent to the Trum's back lot line (and are located at 940 Turlough Lane) have also provided their support for this variance request.

Please advise should you have any questions. I may be reached at 770.442.9121.

Bill - sharing as promised, and given the significance of this project, I am copying the HOA Board for their awareness.

In summary, we are proposing to install an in-ground pool in the backyard of our home. The pool and landscaping will be installed through Atlanta Custom Landscapes (Owner is Anthony Faust), whom we have used extensively in the past. The pool will be rectangular in design, with dimensions of 18' x 36'. There will also be a tanning ledge and spa as part of the setup. Extensive landscaping will also be installed, and we are working with the City of Alpharetta on both a request to remove a single oak and to re-install landscaping per the attached plan.

As you just saw, we are also requesting a variance for the minimum setback of the pool against the current 20' requirement. Our variance filing date deadline is July 1, and the anticipated hearing will not occur until mid September - so in all likelihood, we will not start construction until the October timeframe. Expected duration of the project is 45 days.

I am attaching a PDF of our plan, and I have larger drawings available upon request. Please don't hesitate to contact me should you or the DRB have any questions or concerns. Thanks so much in advance!

Best Regards
Lee
